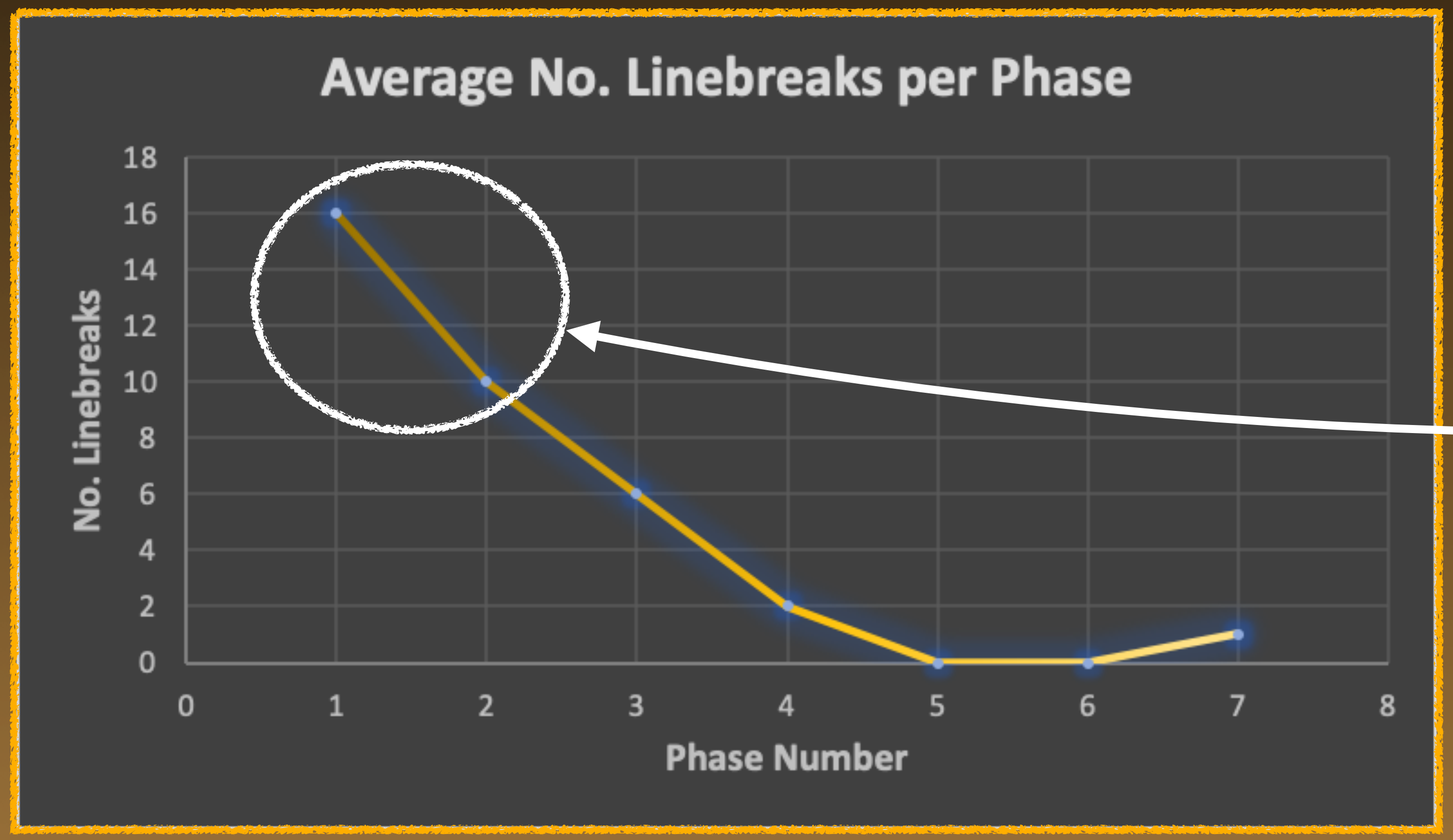
Line breaks

39 Total Linebreaks

3.25 Per Game

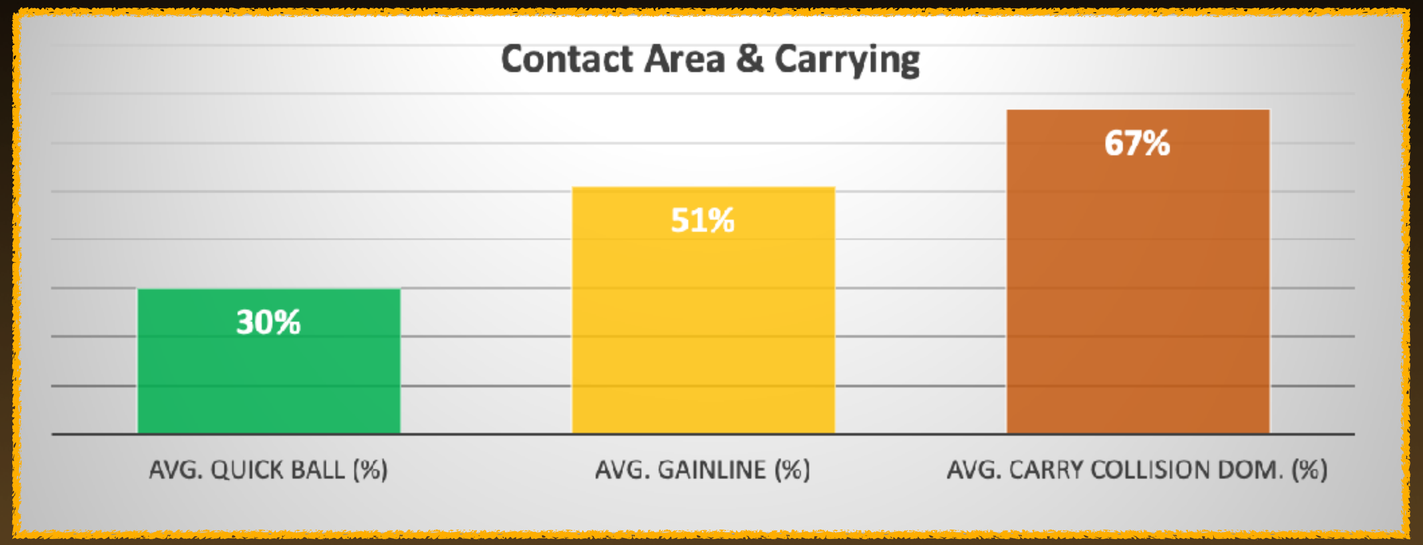


Linebreak King

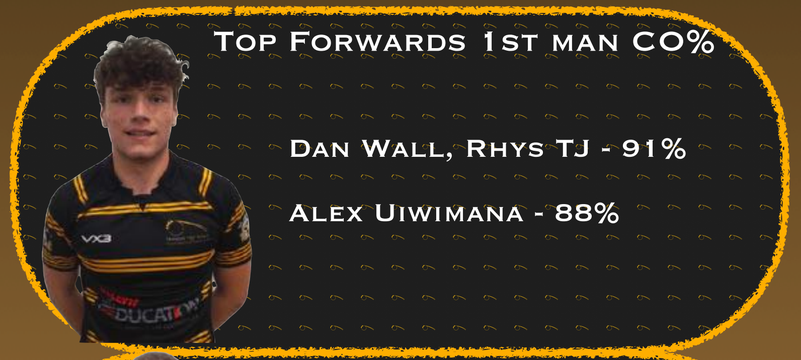
Dray Jack-Griffin	6
Louis Pullen Harry Harkins	5
Dan Wall	4

- Most of our linebreaks occur in the first 2 phases of our play but drop significantly after.

Attack Contact Area



- We managed to make gain line on 51% of our carries with a collision dominance of 67%
- 30% of our rucks per game were quick



Top Forwards 1st man CO%

Dan Wall, Rhys TJ - 91%

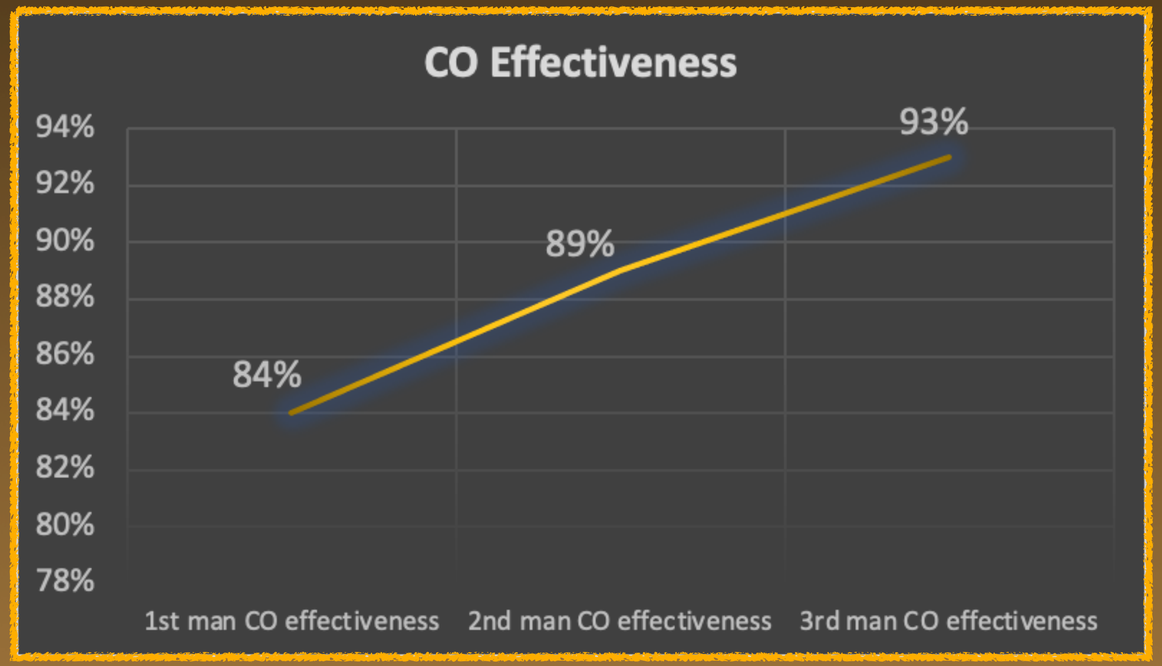
Alex Uiwimana - 88%

Top Backs 1st man CO%

Stefan Petrescu - 91%

David. Petrescu - 89%

Harry Harkins - 80%



- Our CO effectiveness grew with every player we committed, with 84% of our 1st man COs succeeding

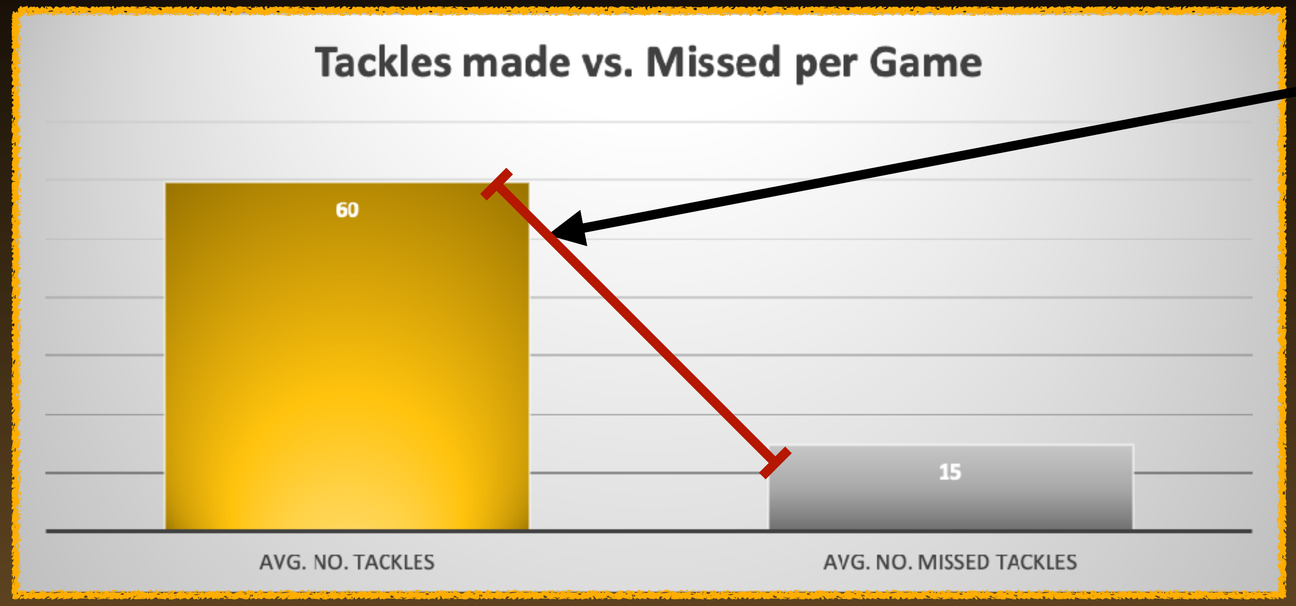
Defence

Tackles



- Averaged an 80% tackle completion rate per game

- Averaged 5 Positive tackles per game, with 26.17 tackles per game losing dominance
- 8.4% Positive, 47.7% . Neutral, 43.9% Negative

Tries & Line breaks

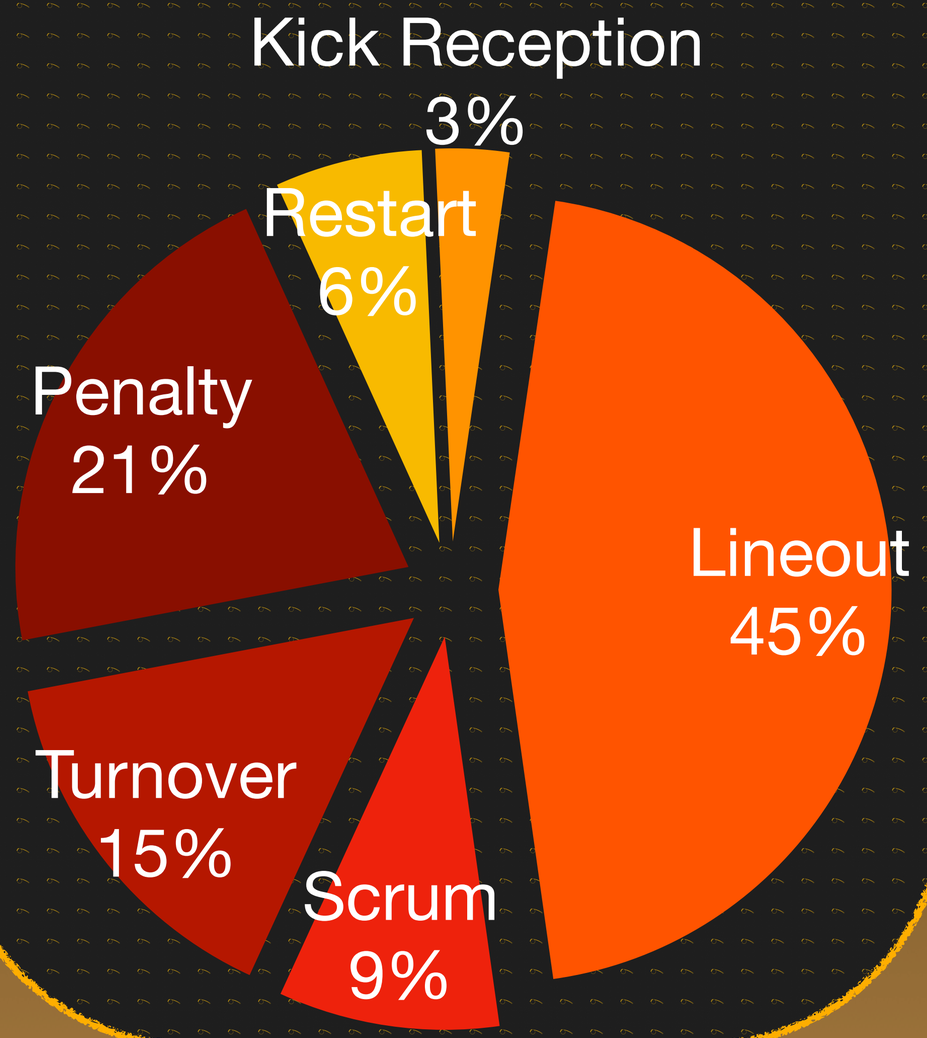
33 Total tries conceded

2.75 Tries conceded per game

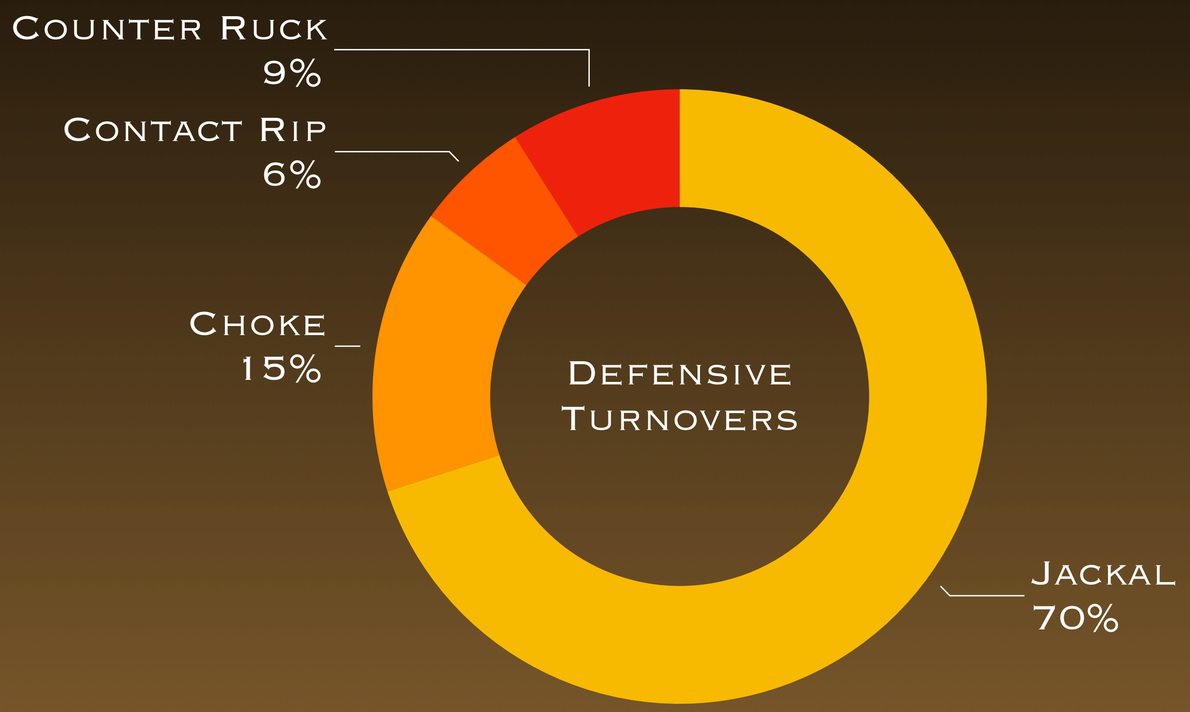
28 Total Line breaks conceded

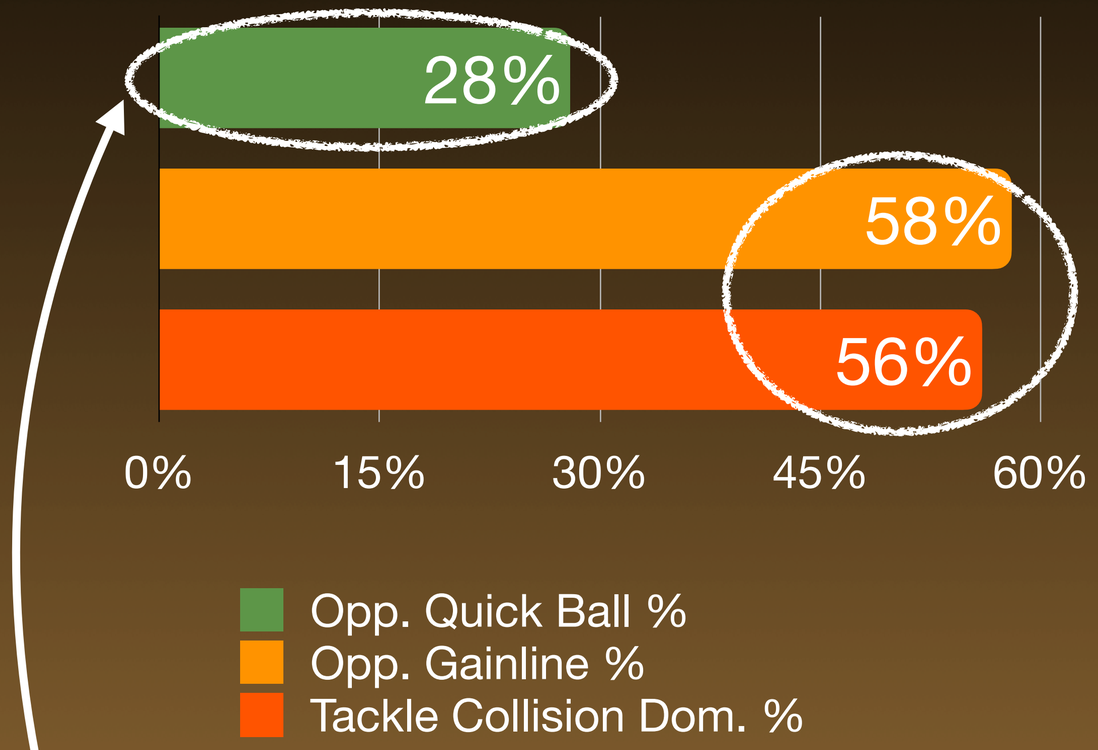
2.33 Line breaks conceded per game

Opp. Try Source %



Defensive Contact Area & Turnovers





- 70% of our 446 defensive turnovers originated from a jackal

- Did a great job at minimising opp. quick ball

- Dominated most tackles but conceded gainline 58% of the time - suggests that our line speed isn't effective enough to make tackles ahead of the gainline

Newport High School

Ysgol Uwchradd Casnewydd

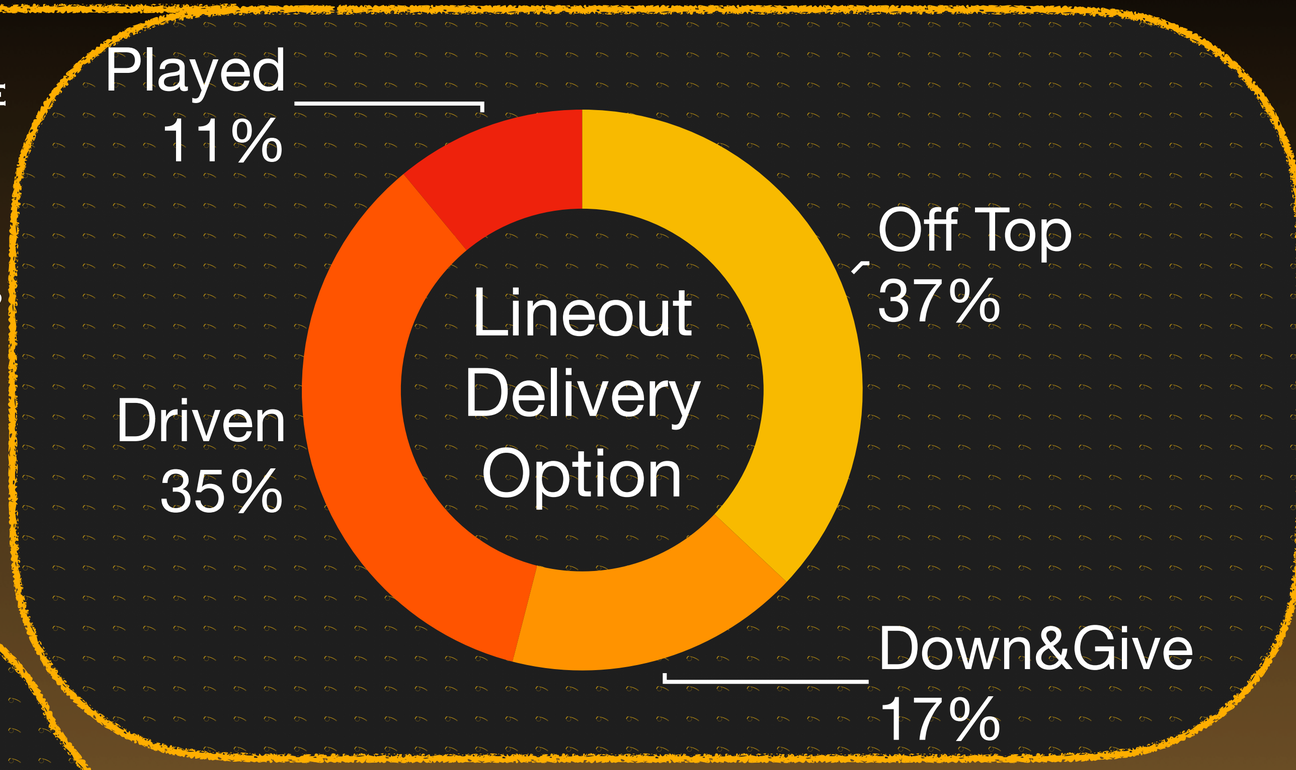
Set Piece

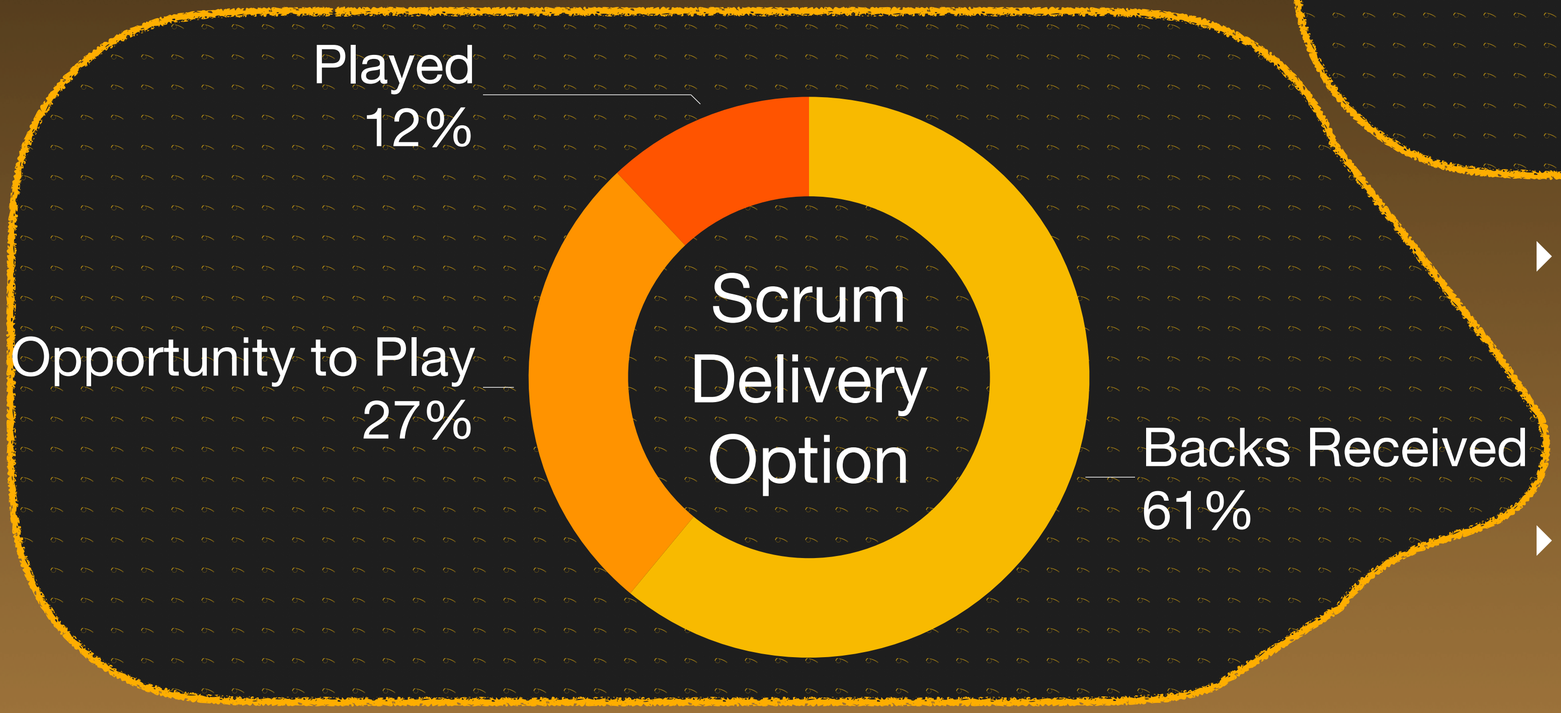
Set Piece Overview

- Our overall set piece success was average among the league, with our lineout % ranking 8th in the colleges league
- Our restarts were fairly successful, with 88% of opposition kick-offs being retained by us
- Scrum had a solid 90% success rate, with some infrequent losses, either by penalty, freekick or missing the shove and hook

Lineout and Scrum

- Our main Lineout options were primarily to drive or off the top to hit midfield
- Our lineout proved to be our most dangerous weapon for scoring tries (35% of our try source), with great results from our drive and midfield blocks
- We were vulnerable to midfield turnovers however due to midfield carrier being isolated





- We predominantly preferred our scrum starter plays to reach the backs due to our aim to score off first phase, which is evident from our linebreak-by-phase breakdown.
- We rarely utilised our No.8 (Played) option from the base of the scrum

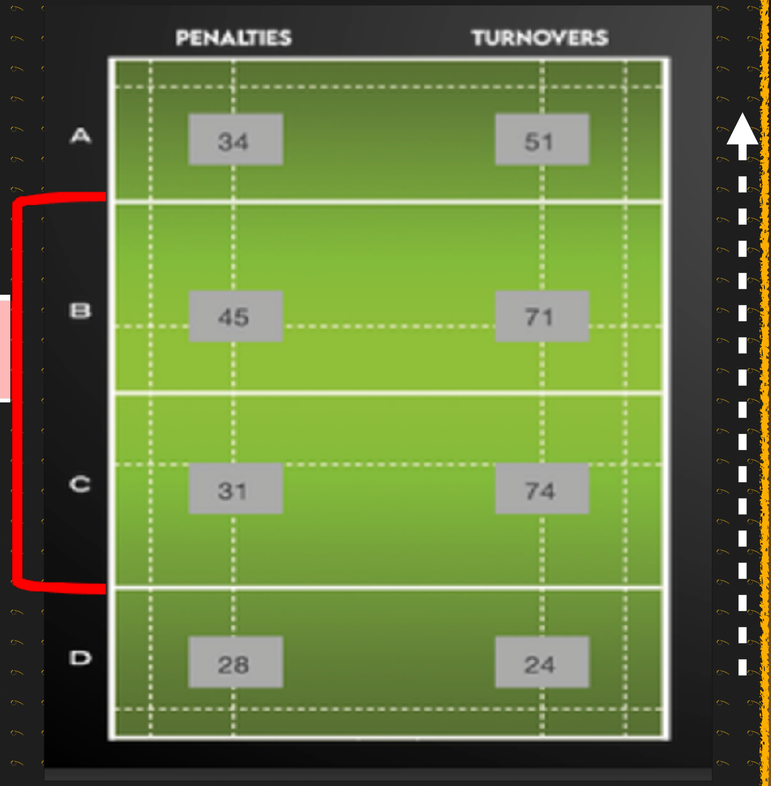
Ysgol Uwchradd Casnewydd

Newport High School
Ysgol Uwchradd Casnewydd

Discipline & Errors

Season Discipline Overview

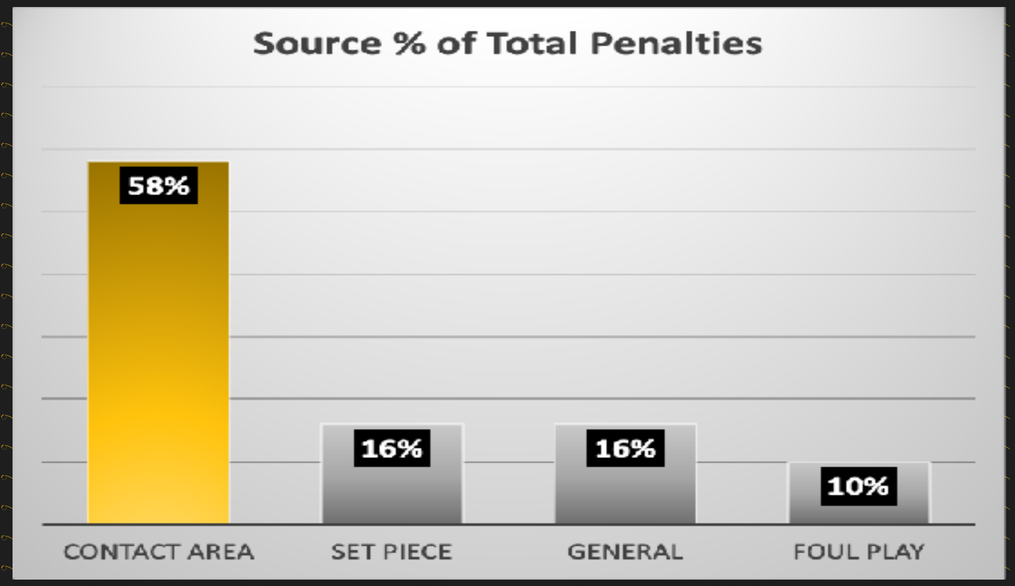
Midfield Discipline

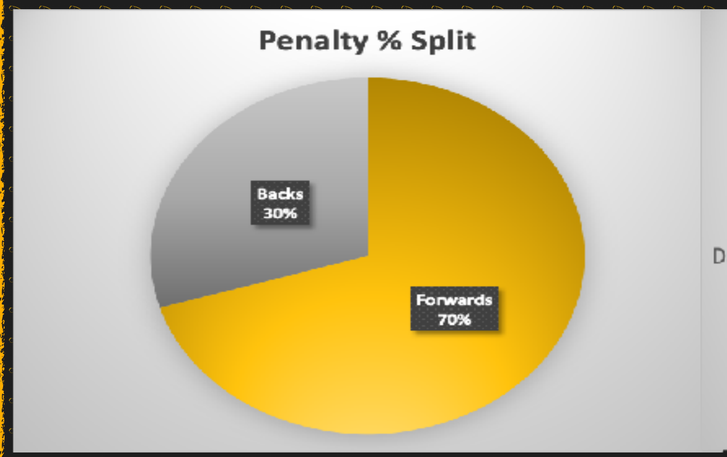


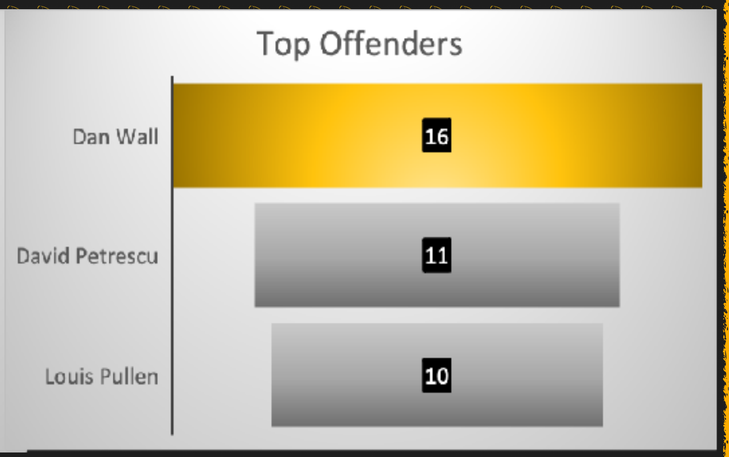
54% of Total Penalties Occur in Midfield

- Not only were 54% of our penalties within the midfield but just under 2 thirds of our turnovers occurred here too - allows opposition to launch attacks into our half
- The best teams constrict their turnovers and penalties closer to the opposition's try line

Penalty Info

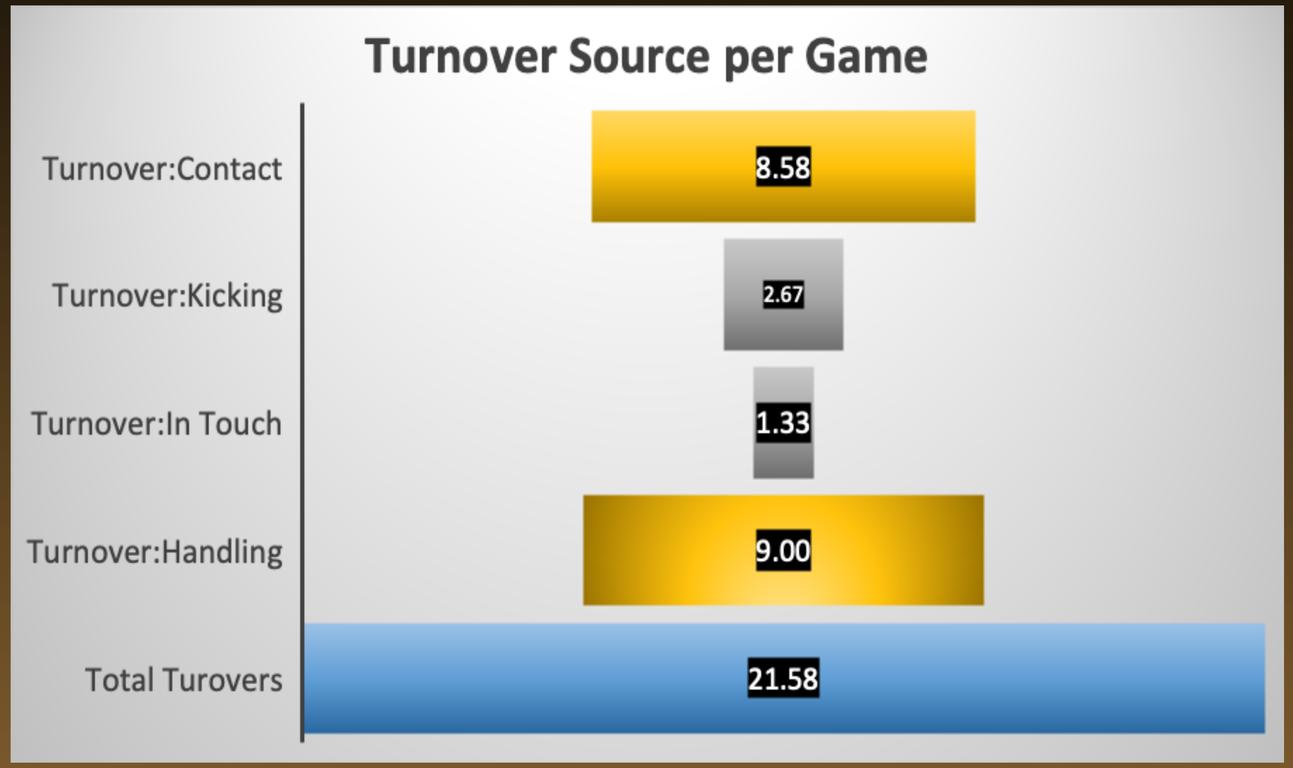


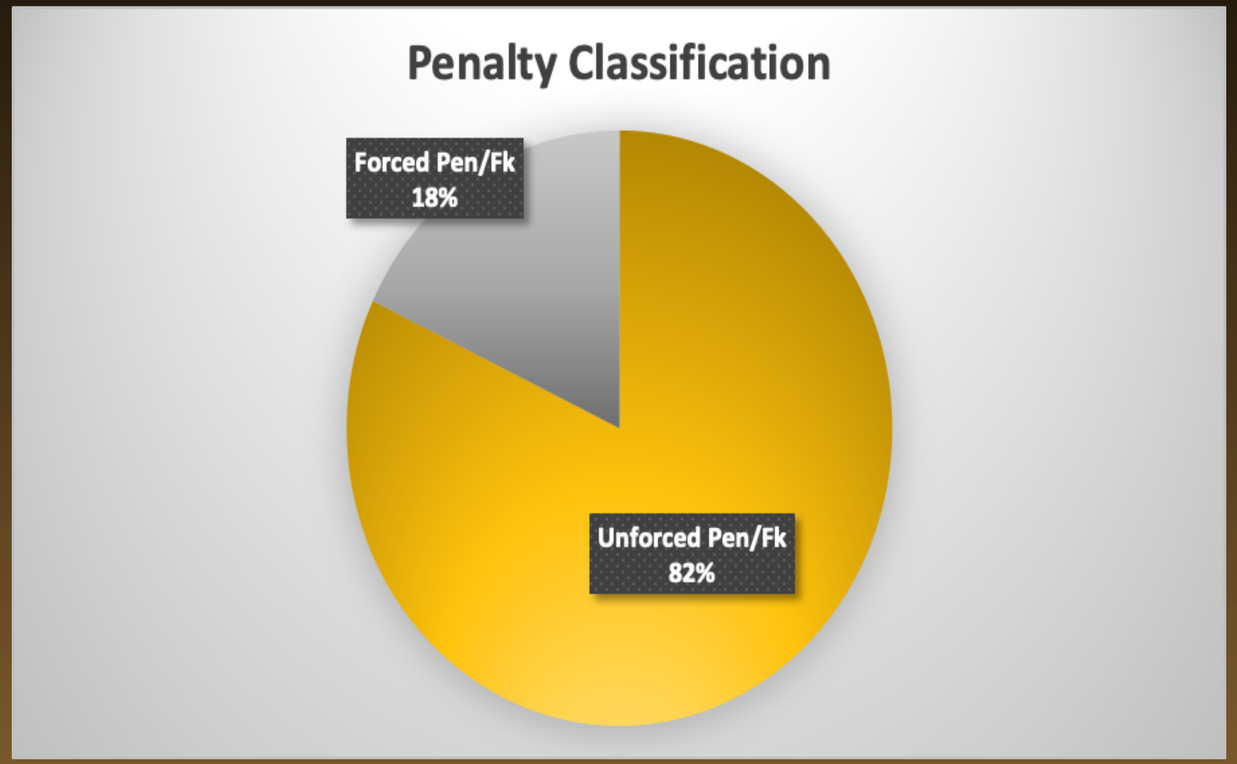




Errors

Avg. Errors per Game = 47





- With an average error number of 47 per game and an average number of turnovers conceded of 21.58, the majority of our mistakes come from our handling and contact errors. The contact area was also the most common area for us to <u>concede penalties</u>

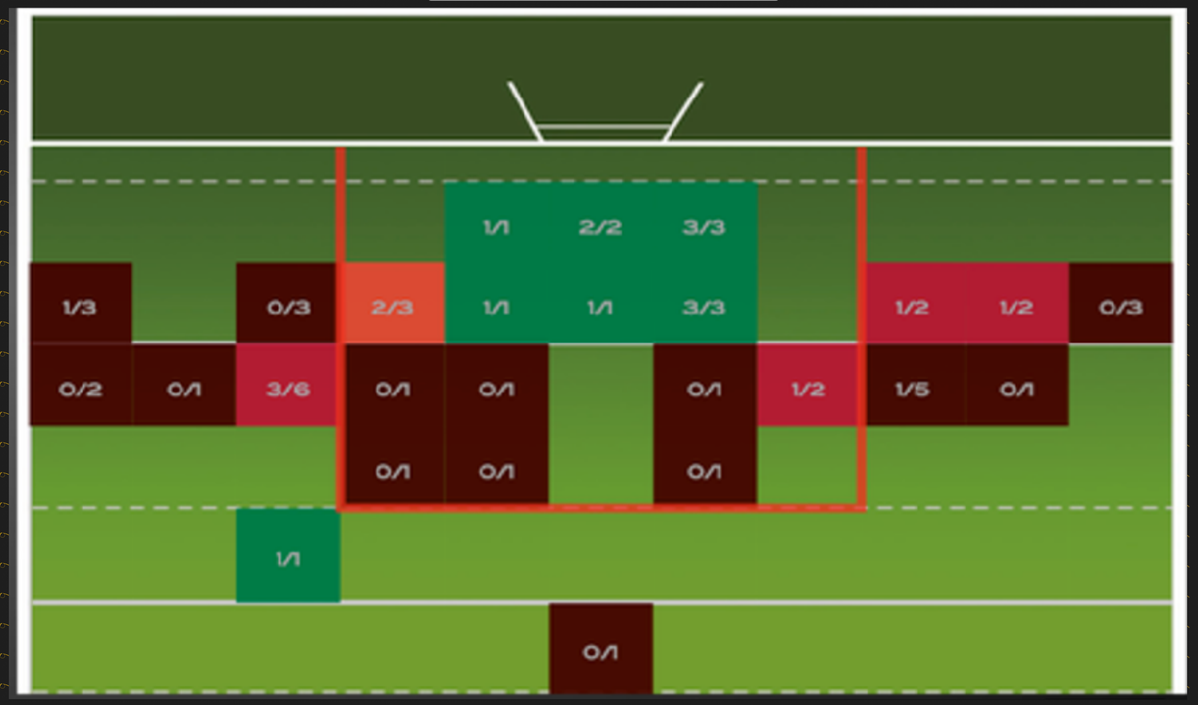
- 82% of penalties/freekicks were unforced, suggesting that most of our errors occurred due to our mismanagement in and out of possession, rather than the quality of the opposition

Newport High School
Ysgol Uwchradd Casnewydd

Newport High School
Ysgol Uwchradd Casnewydd

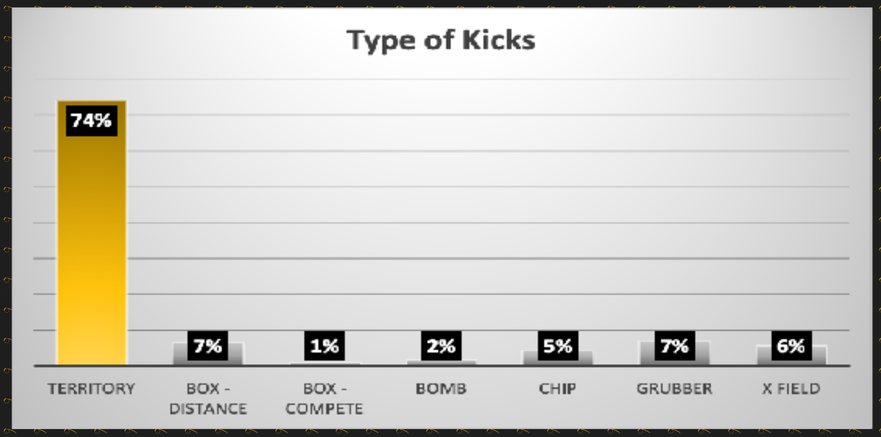
Kicking

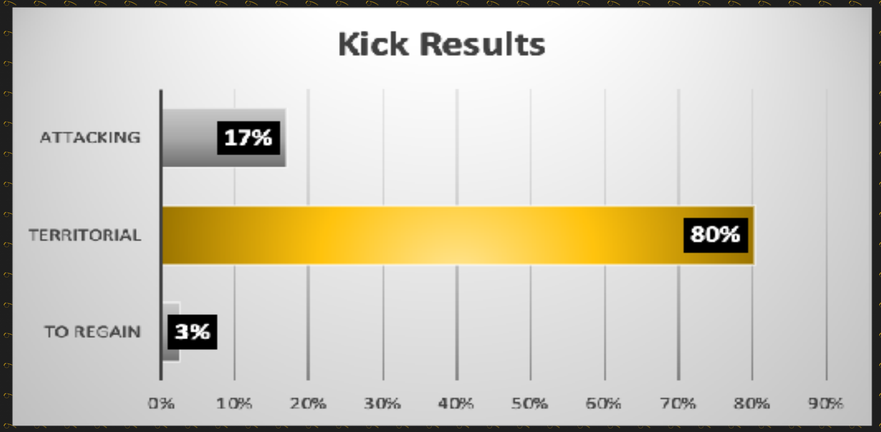
Goal & Open Play Kicking



Goal Kicking Success = 44%

- Our goal kicking was poor overall, with only 14 successful kicks from 23 in the red zone
- We need to aim for 100% success within the red zone to maximise our points per game





- Clearly shows we favour territorial kicks from 10 rather than contestable and attacking box kicks from 9 - something we could look to increase next season
